

INTRINSICALLY SAFE LIGHTING RANGE

RoHS

SAFE • PORTABLE • RECHARGEABLE • AC MAINS

We are now in our 28th year designing and manufacturing portable rechargeable lighting systems. Our main objective is to offer high quality, reliable, innovative products utilising constantly evolving technologies.

Nightsearcher have been trusted to illuminate the most hazardous and hostile working environments. The ATEX mark signifies that equipment is suitable for use in hazardous environments with a potentially explosive atmosphere, so you can be assured that the products you buy from us are completely safe and have undergone rigorous testing and carry the necessary ATEX certification and labelling.

Colin Howard Managing Director

UKAS registered
certification to
ISO 9001:2008.

NightSearcher began manufacturing
lighting systems in 1989 and have
continued producing these from our
UK head office in Portsmouth, UK

All new products are
designed to minimise
our impact on the
environment.

ATEX FLOODLIGHTS

- POWERFUL
- LIGHTWEIGHT
- COMPACT
- 10 HOURS RUNTIME
- IDEAL FOR CONFINED SPACES

Carry handle for easy transportation

Magnetic Feet

Key features:

- Intrinsically safe LED floodlights for use in Zone 1 • 2 • 21 • 22 hazardous areas
- Explosion proof
- High powered SEOUL LED, 10W
- Charging time: 7hrs
- Running time: 10hrs
- Battery: 6.6Ah Lithium-ion
- Design to meet IP66, IK08
- Easy to use, maintenance free
- **Applications - Aircraft Maintenance, Sewers, Tank cleaning, Petrochemical**

ATEX Certification:
NSEX1000RII 2 G D Ex d IIC T6 Gb | II 2 G Ex tb IIIC T80°C Db
