

Site Sphere

- Linkable
- Low Power
- Impact and Drop Resistant
- IP54 Protection

The SiteBright Site Sphere is a highly robust portable linkable LED light designed to operate in a variety of harsh industrial conditions. The super bright instant crisp white light from the COB LED's is designed to replace the need for outdated fluorescent lighting to provide a much more economical solution with far less power consumption. Up to 25 x 110v or 10 x 24v Site Spheres can be linked together from a single supply and positioned in any orientation, ensuring all areas of a site can be economically illuminated with no further maintenance required.

Specifications	
Model	Site Sphere
IP Grade	IP54
Cable Type	Rubber H07RN-F
Plug Type	16A 110v or 24v
Cable Size	1.5mm ²
Product Weight	1.98kg
Approvals	CE, UKCA, ROHS, EMC
Colour Temperature	6000K
Output Lumens	2600 Lumens
Voltage	110v or 24V AC
Wattage	30w
Mounting Options	Integrated Hanging Hook, Integrated Magnetic Base or 6mm Thread for Tripod Mounting
